

JAKUB TARABASZ

ABOUT ME

My name is Kuba, I'm 20 years old. I'm self-taught frontend developer working with React.

My adventure with programming started in 1st grade of high school with C++. I've been learning creating website application for three years. I'm working with React, I started learning it in March 2020. So far i have created few apps with this library, some of them are more, some of them are less advanced, all of them you can see on my github account

<https://github.com/jixmonster>

Present I work as Frontend developer at Finseka.

I always want to learn more and do more. I'm hardworking, fast learner and curious!
